UNIVERSAL COLLEGE OF ENGINEERING & TECHNOLOGY

STEP AHEAD...

A CLUB by students where the ultimate target is to improve all the skills of students of UCET apart from their Technical skills. A new paradigm for the production of innovative minds.

To create an environment in UCET where all students of club share their knowledge and information they have.

We foster the personal growth and professional excellence of the entire STEP AHEAD group inspired from the Swami Vivekanand Contributor Personality Program(SVCP).

A club where the main focus is on improvement of the soft skills like **communication in English, GDs, Debates and PIs by some small scale entertaining games and competitions.**

For registration or queries regarding the group, contact...
